#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1618

Claims 1-56 are presented for examination.

Claims 27-58 are objected to as being improper. Such claims must be entirely underlined, as they are new claims to original patent. See 37 CFR 1.1739 (d) and MPEP 1453 for proper amendment presentation.

Claim 13 is rejected under 35 U.S.C. 251 as being broadened in a reissue application filed outside the two year statutory period. Claim 13 is improperly broadened. Such claim removes the limitation “, the series including a final filter having 0.5 UM opening”. Such claims remove the limitation that was relied on for the allowance of the parent application, and thus, cannot be removed. (See MPEP 1412.02). A claim is broader in scope than the original claims if it contains within its scope any conceived product or process, which would have infringed the original patent. A claim is broaden if it is broader in any one respect even though it might be narrower in other respects.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 13-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 13-23 are directed to the phrase filtering the gel through a series of filter to form a clear solution”. The specification has

Art Unit: 1618

support for certain filters with specific um opening. However, the specification fails to provide support for the broad phrase of "a series of filters" in general with many possible openings. Claims 27-30 are also directed to the phrase "harmful to human eye". The instant specification fails to provide support for such phrase.

Claims 1-56 are rejected as being based on a defective reissue declaration. The original declaration does not indicate certain limitations that were added to the claims.

Applicant is requested to submit a supplemental declaration for any amendments made during the prosecution. See MPEP 1414.01.

The newly submitted amendments necessitate the new ground of rejection.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
